2020 Leadership Summit Cancelled

(Updated: May 19, 2020)

After thoughtful consideration for the health and welfare of our member organizations and the people they serve, LeadingAge has decided to cancel the 2020 Leadership Summit, scheduled for August 10-12 in Washington DC.

While we may not come together for a live event in August, we are actively planning a series of online learning and networking opportunities to enable LeadingAge members to connect and share ideas. We look forward to sharing more about these opportunities in the coming weeks.

Those who have already registered for the 2020 Leadership Summit will be contacted directly regarding their registration fees.

LeadingAge will honor requests for credits or full refunds. We hope that those who have registered will take advantage of the option to apply their registration credit to a future event. Please look for an email with details on these options soon. Any hotel reservations booked through the Omni have been cancelled. No further action is required on your part.
