PROMATDX

April 12-16, 2021

**WHEN THE SUPPLY CHAIN WORLD NEEDS MORE AGILITY
AND RESILIENCY, IT POWERS UP HERE**

In these unprecedented times, supply chain solutions are more critical to business success than they have ever been. To answer this call, MHI created the ProMat Digital Experience (ProMatDX), a new digital event experience designed to power up manufacturing and supply chain professionals with critical access to the latest solutions they need now to improve the resiliency and agility of their operations.

ProMatDX combines the power of the connections, solution-sourcing and education that only ProMat can deliver with the latest digital event technology in a five-day event that will be the most important week of 2021 for the manufacturing and supply chain industry.

Attending ProMatDX is your unrivaled opportunity in 2021 to find solutions, connect with your peers and leading solution-providers and learn the latest trends and technologies that will take your supply chain to the next level of success.

Only at ProMatDX, you can:

Experience the latest solutions from over 400 of the [leading solution providers](#) in product showcases including live chat and digital product demos of the latest technologies and innovations

Learn the latest ideas driving resiliency and efficiency in thought-provoking keynotes and in more than 100 [digital seminars](#) on emerging technologies like IoT, AI, robotics and automation

Connect with solutions tailored to your specific needs with AI-matchmaking and request personalized video meetings with you and your team to take a deeper dive with solution-providers of your choice

Build strong business partnerships with suppliers from around the world

If it's your job to innovate your manufacturing and supply chain operations, you can't afford to miss ProMatDX - April 12-16.

[Register today for free admission!](#)

ProMatDX is the leading event of its kind in North and South America, bringing solution providers together with some of the highest profile buyers in the manufacturing and supply chain world.
