Licensing Exam Sites Re-Opening

04-27-2020 by: Christine Anderson

TREC and Pearson VUE announce licensing exam centers to slowly re-open around the state after swift closure in March in response to the COVID-19 pandemic. TREC partners with Pearson VUE to offer licensing examinations. Pearson VUE operates both company-owned exam sites and third party sites. TREC has authorized the use of all Pearson VUE third party sites to expand exam capacity during this unprecedented time. All

sites continue to enforce social distancing measures and safety requirements in line with local jurisdictions. Due to social distancing requirements, exam sites are operating at a much lower capacity than before and there will likely continue to be delays in scheduling examinations as any backlog is addressed.

Applicants, including those who were scheduled to take an examination prior to Pearson VUE closing sites in March, whose scheduled time was subsequently canceled, are encouraged to log into the Pearson VUE registration tool regularly at www.pearsonvue.com (<http://www.pearsonvue.com/>) to check test center availability.
