ALEXANDRIA, Va. — ASIS Int'l announced Monday its decision to move Global Security Exchange (GSX) 2020 to a fully virtual experience, titled Global Security Exchange Plus (GSX+). The event will include more than 80 industry-leading education sessions, an exhibition marketplace and peer-to-peer networking opportunities.

The announcement follows:

Following months of careful evaluation of the risks associated with convening an event of 20,000 professionals from across the globe during the [COVID-19 pandemic](#), ASIS leadership concluded that transitioning GSX to a virtual-only environment for its 2020 event was the correct course of action, in the best interests of its members, attendees, speakers, exhibitors, and the public.

Previously scheduled to take place 21-23 September in Atlanta, Georgia, USA, the new online GSX+ will bring together a global audience with live and on-demand features from 21-25 September.

...as a virtual-only experience will provide our members, exhibitors, sponsors and of-a-kind approach that will advance security worldwide," says Godfried Hendriks, the ASIS Global Board of Directors. "While circumstances dictate that we must meeting this year, we are excited for GSX+ to deliver to a wider global audience the ty networking, marketplace, education, and training that truly set GSX apart. There and for a comprehensive experience that helps the entire security profession learn "

...very element of a live event in an online environment: Community, Content, onnection. GSX+ provides a new, fully virtual forum for the global security nect and engage with live discussions on the most pressing industry issues, CPE- sessions, a robust marketplace, and peer-to-peer networking. Unlike other security- GSX+ is produced by ASIS International, the world's largest association for security essionals. By the industry and for the industry, GSX+ is where a global audience of als and partners showcase their knowledge, products, and services through an and secure platform. Topics of education sessions will range from workplace

violence and behavior detection to return to remote work, pandemic lessons learned and well-being of security personnel.

"We are pleased to unveil our new GSX+ model, which will deliver the same number of CPEs as GSX, more accessibility with a lower cost to participate, and will live online for several weeks after an initial 5-day live event," Peter J. O'Neil, FASAE, CEO, ASIS International. "It's never been more important for organizations to focus on risk management and business continuity. GSX+ offers a new way for professionals to come together, discover new technologies and approaches, and dive into important discussions around global best practices."

To learn more about the virtual event, the organization has posted a listing of frequently asked questions at GSX.org.
