April 13, 2020

The leadership of ESX announced today that the Electronic Security Expo (ESX) 2020, originally scheduled for June 9-12 in Nashville, Tenn., has been cancelled.

“Knowing how important ESX is for our community and the electronic security and life safety integration and monitoring professionals that rely on the event for best practice sharing and business advice, we held out hope we would be able to hold ESX in 2020,” the announcement, posted on the conference’s website, said. “We are unable to reschedule ESX in 2020 due to the unavailability of the venue during a time which makes sense for our attendees.”
