## **About CRA...**

The California Rental Association has been promoting the equipment and party rental industry since it began in 1946. The association has actively promoted high standards and ethical practices, encouraged harmony and cooperation among its members, and educated the public about the benefits of rental. Our industry has grown into a multimillion dollar business with a tremendous impact on California's economy — and CRA has been there from the beginning, working to increase public awareness and to provide ongoing services for its members and the public at large.
