Staying Unconventional

A Powerful Digital Experience Awaits

URTeC 2020 Online is an exciting evolution of the world's flagship unconventional resources event. The program will feature more than 250 talks, panels and team presentations, online exhibitor resources and scheduled social events. Registrants will have access to all content in real time – as activities are broadcast Monday to Wednesday, July 20-22 – and on-demand through the end of 2020, accessible anytime, anywhere and from any device.

Even in these uncertain times, URTeC 2020 Online is the best opportunity you'll have to exchange information, formulate strategic ideas and solve problems to manage and optimize your unconventional resource plays.
