UPDATE ON DREAMFORCE

At Salesforce, our events have always been a special opportunity for us to come together with our global community to share best practices and innovations — culminating with Dreamforce, the largest software conference in the world. As the COVID-19 situation continues to evolve, our first priority is to help ensure the health and safety of our customers, partners, employees and communities. With this in mind, we have decided to reimagine all of our events through the end of the year in new and virtual ways, including Dreamforce.

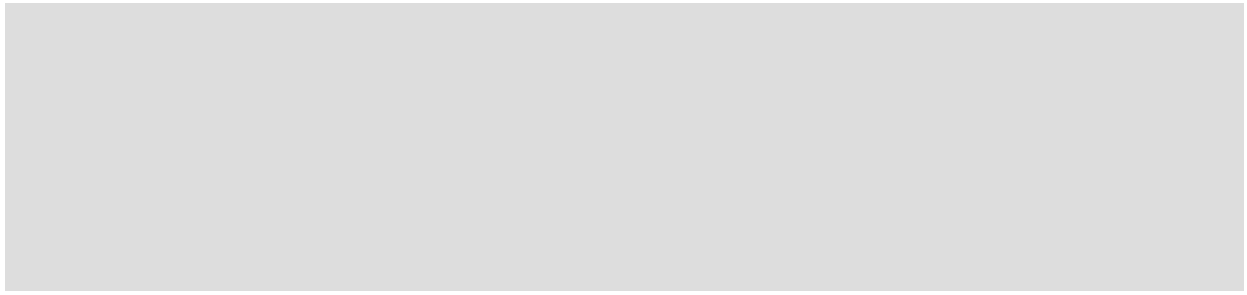

We will miss bringing everyone together in person, but we are excited to shape our virtual events in ways that bring all of the fun, innovation and learning to our dedicated community of Trailblazers.

Please read our full update at our [newsroom](#) and visit our [FAQ](#) for more details on Dreamforce.

Taking Action to Build a More Sustainable F

Salesforce partners with Cupanion to provide every Dreamforce attendee with a reusable water bottle to reduce plastic bottle waste. This is a part of our ongoing commitment to the United Nations' Sustainable Development Goals, specifically Responsible Consumption and Production, Clean Water and Sanitation, and Life Below Water.

Each refill gets us one step closer to helping people around the world access clean water. Check out our progress and learn how you can make a difference this week too — from wherever you are.
