## Reduced Service

As ridership has dropped due to COVID-19, we will be temporarily reducing service starting April 5. This is a painful-but-necessary adjustment that will help us quickly bounce back when this public health crisis passes.

During this time, our priorities are to run transit throughout our service district that...

- Is safe for riders and operators, following the recommendations of the Oregon Health Authority.
- Enables essential workers — nurses, doctors, first responders, and other similar roles — to get to their places of work, so they can keep our community going during this time.
- Is sustainable for our finances and staffing.

Transit should only be used if necessary to access food, medicine and essential employment. All other trips should be avoided — please follow the guidance of Governor Brown and the Oregon Health Authority to stay home.

[Here's how we are addressing the overall situation.](#) But for now, we are making our service match the needs of our community and setting ourselves up to quickly bounce back when this crisis passes.

---

# SERVICE AS OF APRIL 5
