## COVID-19 Information

RIDOC has been proactive in its mitigation efforts and response planning for COVID-19 since the beginning of the pandemic in March 2020, as the health and safety of the people who live and work within the Department is our priority. RIDOC will continue to take swift and assertive action in response to this public health emergency.

This page is updated frequently, but please be patient. COVID-19 information and practice changes are ongoing, sometimes happening daily. RIDOC strives to notify staff and offenders of these changes as quickly as possible.
