Termination of Utah County Mask Mandate

October 20, 2020

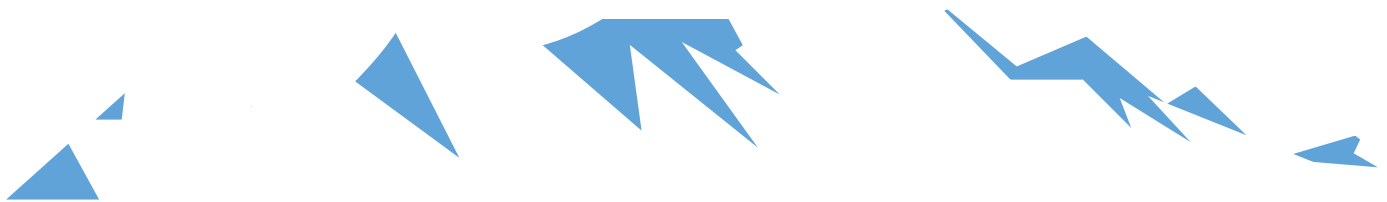

Utah County Health Department and County Commissioners recognize the need for Utah County and the public to continue to work cooperatively and proactively to slow the spread of COVID-19.

Due to Utah County being assigned a “high level of transmission” under the State of Utah’s Transmission Index, there is no longer a need for a Utah County Public Health Order because of the expectation for all individuals throughout Utah County to adhere to the health guidance issued by the State of Utah.

For more information on the state of Utah’s Transmission Levels [visit coronavirus.utah.gov/utah-health-guidance-levels/](https://visit.coronavirus.utah.gov/utah-health-guidance-levels/).
