2019 SUSB Annual Data Tables by Establishment Industry

2019 SUSB Annual Data Tables by Establishment Industry

FEBRUARY 2022

SUSB annual or static data include number of firms, number of establishments, employment, and annual payroll for most U.S. business establishments. The data are tabulated by geographic area, industry, and employment size of the enterprise. The industry classification is based on 2017 North American Industry Classification System (NAICS [<https://web.archive.org/web/20220218235539/https://www.census.gov/naics>]) codes. An establishment with 0 employment is an establishment with no paid employees in the mid-March pay period but with paid employees at some time during the year.

Receipts data are available only for Economic Census years (years ending in 2 and 7).
