

April 23, 2021

On October 16, 2020, the Executive Director of the Denver Department of Public Health & Environment (“DDPHE”) issued a public health order directing institutes of higher education to complete a number of actions to reduce the spread of COVID-19 at institutes of higher education.

Since then, COVID-19 rates have decreased at institutes of higher education and the Colorado Department of Public Health (“CDPHE”) has issued a new, less restrictive public health order. As a result, this order hereby rescinds the October 16, 2020 DDPHE order.

Issued by:

Robert McDonald

Robert M. McDonald
Public Health Administrator, City & County of Denver
Executive Director, Denver Dept of Public Health & Environment
