Please review our Frequently Asked Questions [here](#).

UPDATED: October 23, 2020 at 10:10 AM

ESSENTIAL BUSINESSES OR ENTITIES, including any for-profit or non-profit, regardless of the nature of the service, the function they perform, or its corporate or entity structure, are not subject to the in-person restriction. *Essential Businesses must continue to comply with the guidance and directives for maintaining a clean and safe work environment issued by the Department of Health (DOH) and every business, even if essential, is strongly urged to maintain social distancing measures to the extent possible.*

This guidance is issued by the New York State Department of Economic Development d/b/a Empire State Development (ESD) and applies to each business location individually and is intended to assist businesses in determining whether they are an essential business. With respect to business or entities that operate or provide both essential and non-essential services, supplies or support, only those lines and/or business operations that are

necessary to support the essential services, supplies, or support are exempt from the workforce reduction restrictions.

State and local governments, including municipalities, authorities, and school districts, are exempt from these essential business reductions, but are subject to other provisions that restrict non-essential, in-person workforce and other operations under [Executive Order 202](#).

On April 26, 2020, Governor Cuomo [announced](#) a phased approach to reopen industries and businesses in New York in phases based upon a data-driven, regional analysis. On May 4, 2020, the Governor [provided](#) that the regional analysis would consider several public health factors, including new COVID-19 infections, as well as health care system, diagnostic testing, and contact tracing capacity. On May 11, 2020, Governor Cuomo [announced](#) that the first phase of reopening would begin on May 15, 2020 in several regions of New York, based upon available regional metrics and indicators. This essential business guidance shall remain in effect for the regions and industries that are not yet within the reopening phases.

9. Construction

All non-essential construction is limited to only staging activities in regions that are not yet within the first phase of the state's reopening plan, except emergency construction, (e.g. a project necessary to protect health and safety of the occupants, or to continue a project if it would be unsafe to allow to remain undone, but only to the point that it is safe to suspend work).

Essential construction includes:

- construction for, or your business provides necessary support for construction projects involving, roads, bridges, transit facilities, utilities, hospitals or healthcare facilities, homeless shelters, or public or private schools;
- construction for affordable housing, as defined as construction work where either (i) a minimum of 20% of the residential units are or will be deemed affordable and are or will be subject to a regulatory agreement and/or a declaration from a local, state, or federal government agency or (ii) where the project is being undertaken by, or on behalf of, a public housing authority;
- construction necessary to protect the health and safety of occupants of a structure;
- construction necessary to continue a project if allowing the project to remain undone would be unsafe, provided that the construction must be shut down when it is safe to do so;
- construction for existing (i.e. currently underway) projects of an essential business; or
- construction work that is being completed by a single worker who is the sole employee/worker on the job site.

At every site, it is required that the personnel working on the site maintain an appropriate social distance, including for purposes of elevators/meals/entry and exits. Sites that cannot maintain appropriate social distancing, as well as cleaning/disinfecting protocols must close. Enforcement will be conducted by state and local governments, including fines up to \$10,000 per violation.

Construction may continue solely with respect to those employees that must be present at the business location/construction site in support of essential business activities. No other employees/personnel shall be permitted to work in-person at the business location/construction site. For staging activities, an in-person workforce may be present on-site to:

As noted above, local governments, including municipalities and school districts, are allowed to continue construction projects at this time as government entities are exempt from these essential business restrictions. However, to the greatest extent possible, local governments should postpone any non-essential projects and only proceed with essential projects when they can implement appropriate social distancing and cleaning/disinfecting protocols. Essential projects should be considered those that have a nexus to health and safety of the building occupants or to support the broader essential services that are required to fulfill the critical operations of government or the emergency response to the COVID-19 public health crisis.

Pursuant to Executive Order [202.42](#) and [202.45](#), all non-essential gatherings of individuals of any size for any reasons (e.g., parties, celebrations, or other social events) are limited to no more than twenty-five (25) or fewer people in regions that have reached Phase Three of reopening, and no more than fifty (50) people in regions that have reached Phase Four of reopening, so long as appropriate social distancing and face covering requirements are followed. Under Executive Order 202.41, any region that has not yet entered Phase Three of reopening, non-essential gatherings cannot exceed ten (10) people, and social distancing and face covering requirements must be adhered to.
