[What's Next for Health](#)

Together, we're building a brighter future for the global health ecosystem so that everyone, everywhere, has access to care that works.

[Learn More](#)

We are the reformers—the change agents.

Our vision is a world where everyone, no matter where they are in the world, can reach their full health potential.

As the global thought leader in health innovation, HIMSS stands as a change agent. We're driven by our mission: reform the global health ecosystem through the power of information and technology. And by creating an informed and empowered community of providers, innovators and individuals, we will enable an ever-improving state of health throughout the world.

Join us as we reimagine health—together.

[Communication and Collaboration: Key to Advancing Innovation Policy](#)

How we approach innovation policy is key to the future of health globally.

[Emerging Technologies](#)

[With Natural Language Processing You Can Have Your Cake and Eat It Too](#)

What if we could have a rich narrative and the ability to machine process and encode important concepts within medical records?

Our Health Story Project co-chair shares how natural language processing bridges the divide and makes both possible.
