Shift20 July 12-15,2020

Change, progress, acceleration...Our world is moving fast. We are shifting.

Shifting how we formulate, package, and experience food science and technology. Consumer tastes and preferences are shifting. Food technology and innovation are shifting. Regulation, safety standards and public policy are shifting.

What got us here won't get us there. We must pivot, evolve, grow, expand and shift our lens, our mindset, and our work to meet the needs of those we serve.

IFT20 is the place, the platform, the event that helps the food industry imagine, learn, connect and shift to what's possible.

[Learn more](#)

IFT20—Where we come together to shift what it means to develop, research, formulate, package, go to market, and lead our community.

[START-UP ALLEY](#)

Start-ups and entrepreneurs showcase your innovative products at IFT20
